SUMMARY

- Frontend Developer with 4+ years of experience designing and building modern React applications
- Solid understanding of all software development life cycle processes (SDLC).
- Details matter - Keen eye for designing modern user interfaces - Spacing, Color, Typography, Layouts, Accessibility
- Ability to multitask, react quickly to shifting priorities and meet deadlines using Agile - SCRUM methodology.
- Continuously monitoring trends, technologies & standards, energized by the challenge of trying something new.
- Extensive knowledge of creative/business tools including Figma, Sketch, Adobe Software Suite, Microsoft Suite.

PROFESSIONAL EXPERIENCE

CalPERS (California Public Employees' Retirement System)

November 2017 - Present

Front End Developer (React.js)

- Designed highly scalable, clean and interactive user interfaces for critical internal applications in Figma, moving from wireframes to mockups to development, meeting project and business objectives while considering constraints.
- Created a library of reusable React components, standards, enabling quicker development of new applications.
- Used React.js, Tailwind CSS, React/Reach Router, Redux, REST APIs, to design and implement an internal document routing and e-signature application to increase efficiency while reducing paper use.
- Tested for accessibility when designing and implementing features, considering a diverse set of users.
- Utilized JIRA, Bitbucket, GitHub, Sourcetree, continuous deployment, to collaborate with teams.
- Agile work environment delivering a shippable product at the end of each sprint.
- Planned and conducted cross-browser usability testing against W3C, ADA as part of the development process.

Pizza Guys Franchises, Inc

April 2016 - May 2018

Lead Web Developer

- Lead major redesign of Pizza Guys website, focusing on the mobile ordering experience.
- Participated in initial planning, analysis, prototyping, development, testing and deployment.
- Managed time-sensitive updates, including content changes and database upgrades.

WebPerfex

October 2012 - Present

Full Stack Developer

- Designed high fidelity wireframes, detailed prototypes, component libraries for clients using Figma
- Built and maintained 25+ websites using React, Gatsby.js, Next.js, GraphQL, Tailwind CSS, Contentful (Headless CMS)
- Built static generated, server side rendered applications, optimizing for page speed & accessibility
- Developed iOS applications in React Native, wrote and integrated RESTful API endpoints

EDUCATION

California State University, Sacramento

Spring 2022

B.S. Computer Science

CORE COMPETENCIES

- JavaScript
- React.js
- Tailwind CSS
- Figma
- UI/UX
- Node.js
- GitHub, CI, CD
- HTML5, CSS3
- React Native
- TypeScript
- PostgreSQL
- JIRA
- Gatsby.js, Next.js
- GraphQL, Axios
- Vue.js
- Jest
